#### 1 Product Information

# Access control handle H100 EURO

For Euro lock doors - for use in indoor areas

## Product description

Wireless Aperio® handle which can be integrated into any access control system via AADP protocol integration or via Aperio Wiegand Hub

Can be used with the most common European (DIN) mortise locks - in wooden, steel, and tubular-frame doors (and glass doors with standard lock cases)

Online or offline mode is selected in software during product initialization (accessories PAP tool and radio dongle or cable required)

When online, communication from hub to the Online Access Control System (addressable) - access decision in the EAC system

All electronics and functionality are in the outside part of the handle

Outside handle rotates freely - inside handle always engaged

LED for status visualization

Discrete handle with minimum footprint and contemporary design
