CHIUDIORTA MULTIFORZA CON FERMO REGOLABILE

564

VARIABLE POWER DOOR CLOSER WITH ADJUSTABLE HOLD OPEN

CARATTERISTICHE:

- **Unico corpo** in ghisa per tutte le forze.
- **Custodia** di finitura in ABS ad alta resistenza.
- **Forza** di chiusura variabile **EN 2-5**.
- **Fermaporta integrato** di facile e precisa regolazione.
- **Velocità di chiusura** 180° - 10° circa, regolabile con valvola termostatica non critica. In caso di regolazione senza scatto assicura un controllo su tutto l'arco di chiusura.
- **Scatto finale** da circa 10°. L'angolo di scatto è facilmente modulabile da un braccio a doppio tenditore fino alla sua eliminazione completa (chiusura dolce). La possibilità di scatto potente anche da angolo ridotto a pochi gradi, garantisce la chiusura anche in caso di serrature con scrocci particolarmente duri.
- **Ampia** disponibilità di accessori per risolvere qualsiasi problema di montaggio.
- **Finiture di serie:** argento, oro, bronzo chiaro, nero opaco, avorio RAL1013, bianco RAL 9016. Altre finiture possono essere disponibili a richiesta.

FEATURES:

- **One body size** in high duty cast iron for all sizes.
- **Cover** in special impact resistant ABS.
- **Variable** closing force sizes **EN 2-5**.
- **Integrated hold open** device easily adjustable precisely to the desired angle.
- **Closing speed** 180° - 10° adjustable by non critical thermostatic valve which, in case of Without-Final-Latch setting of the arm, controls the complete arc of closing.
- **Final latch** from approx. 10°. The latch angle is easily reduced by turning the forearm, up to its elimination (soft closing). The possibility to ensure a powerful latch also from an arc of just a few degrees guarantees reduced noisy action in case of hard-to-latch locks.
- **Wide range** of accessories to make all mountings possible.
- **Standard finishes:** silver, gold, light bronze, mat black, oyster white RAL1013, traffic white RAL 9016. Other finishes may be available on request.

COME VARIARE LE FORZE.

La posizione di montaggio del corpo e il fissaggio del piedino determinano le forze 2-3-4-5.

HOW TO SET THE CLOSING FORCE.

The mounting location and the attachment shoe position determine the closing forces 2-3-4-5.

DIMENSIONI MASSIME CONSIGLIATE DELLE PORTE.

In caso di porte soggette a vento o a correnti d'aria, selezionare la forza superiore.

RECOMMENDED MAXIMUM DOORS SIZES.

In case of doors subject to wind or air draught, select the next higher size.

Norma europea EN 1154: momento di chiusura tra 0° e 4°	Forza Force	Larghezza max. porta Max. door width	EN richiede EN requires	Mod. 564
European standard EN 1154: closing moment between 0° and 4°	2	850 mm.	≥ 13 Nm	≥ 16 Nm
	3	950 mm.	≥ 18 Nm	≥ 20 Nm
	4	1100 mm.	≥ 26 Nm	≥ 30 Nm
	5	1250 mm.	≥ 37 Nm	≥ 40 Nm

**REGOLAZIONE DELLA VELOCITÀ
DI CHIUSURA (180°-10°).**

CLOSING SPEED ADJUSTMENT (180°-10°).

**REGOLAZIONE DELL'ANGOLO
DI SCATTO FINALE (10°- 0°).**

**ADJUSTMENT OF FINAL LATCH
ANGLE (10°- 0°).**

With final latch

A Senza scatto finale
Without final latch

FERMAPORTA ESCLUSIVO MAB.

Il movimento solidale del braccetto con il pignone rende possibile una potente azione di fermo tra 70° e 140°. Per la sua efficacia è particolarmente indicato per porte **ESTERNE**.

MAB UNIQUE ADJUSTABLE HOLD OPEN DEVICE.

Being connected to the pinion, the shim ensures a strong hold open action between 70° and 140°. Recommended for **EXTERIOR** doors.
