EAN CODE: 5908254823480

Solar panel for camera charging OR-MT-ME-1809

The monocrystalline solar panel converts solar energy into electricity necessary for the proper functioning of individual devices. The panel complements the Wireless Wi-Fi Camera. Set (OR-MT-ME-1809) and enables its recharging during the day without connecting to an external power source

General information

Cell material: monocrystalline

Number of cells: 10

MPP power by STC: 3.3 W

MPP-voltage: 5 V

Open circuit voltage: 6 V

MPP-current: 660 mA

Short-circuit current: 720 mA

Power tolerance: +/- 5%

With frame: yes

Colour frame: black

With connection cable: yes

Height: 17 mm

Operating temperature: -30°C~+75°C

Width: 189 mm

Length: 150 mm
