All About Biometrics

Innovative Global Leader in Biometrics and Security

---

# Chapter I

## Company Overview

---

Established in 2000 (May)

Headquarter	South Korea
# of Employees	160 PPL (R&D More than Half)
Global Business Status	More than 1,000 Customers in 125 Countries
CAGR (%)	CAGR 35.9% (2007–)
Financial Status	Listed to KOSDAQ (094840) W/ Market Capitalization over USD 300 Mil.

# I. About Suprema

Suprema is a Korean electronic manufacturer specialized in Biometric and Security  
It provides customers with various biometric applications and solutions for a wide spectrum private and public sector industries

## Biometrics Platform with Easy Use, Installation and Integration

# I. Business Highlights

Suprema continually expands its strong presence and fame within the biometric & ID solutions industry  
Suprema is the only biometric specialist company listed among the world's top 50 security companies

- ✓ Revenue growth rate [CAGR] of 35.9% (2007~)
- ✓ More than 60% market share in the domestic market(South Korea)
  - ✓ Oversea sales represent 73% of revenue
- ✓ Sold over 1,000,000 fingerprint products worldwide
- ✓ USD 300 million for Suprema stock on KOSDAQ (Mar 2014)

# I. Business Highlights

Suprema continually expands its strong presence and fame within the biometric & ID solutions industry  
Suprema is the only biometric specialist company listed among the world's top 50 security companies

- ✓ Named World's Top 50 Security Company by AS MAG in 2011, 2012, 2013
- ✓ Recognized as One of Top 10 Fastest Growing Companies amongst the Top 50
- ✓ Detektor Award for 3 years best product or best innovation (2009, 2010, 2012)
- ✓ Top result in NIST MINEX(1) tests (2008)
- ✓ Ranked top in FVC(2) in 2004, 2006 and 2010
- ✓ FBI certification for live-scanners
- ✓ Frost & Sullivan's Biometrics Company of the Year 2009

(1) MINEX (Fingerprint Algorithm Performance)  
(2) Fingerprint Verification Competition (Compatibility)

# I. Business Highlights

Suprema continually expands its strong presence and fame within the biometric & ID solutions industry  
Suprema is the only biometric specialist company listed among the world's top 50 security companies

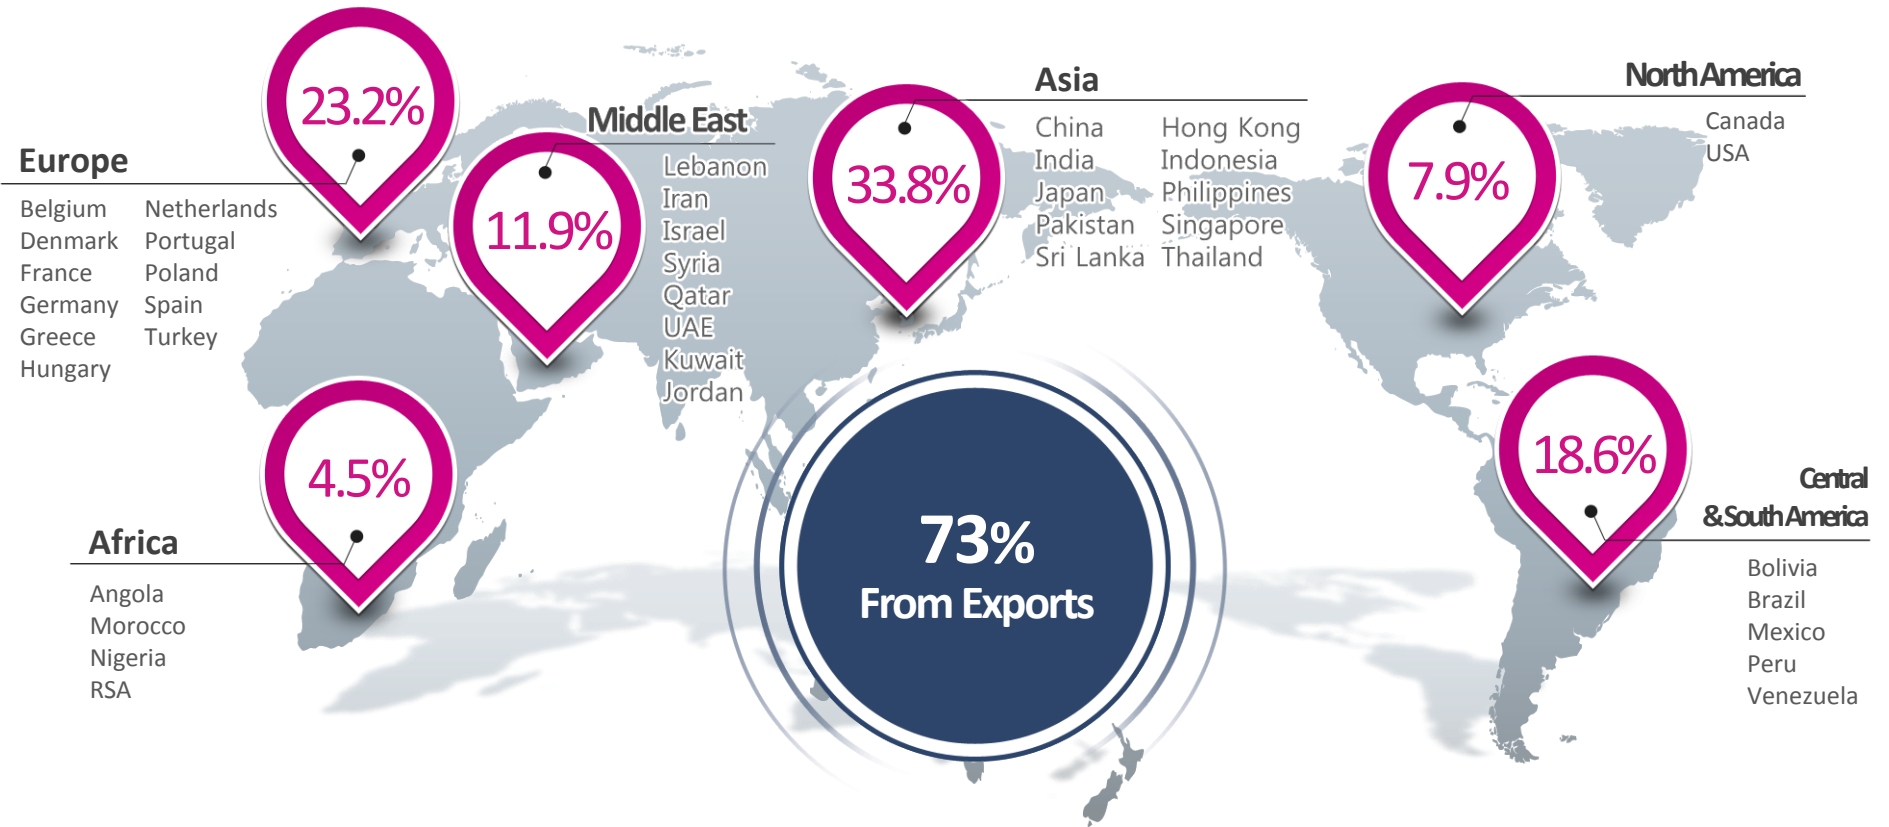

- ✓ Detektor Award in 2009 - Best product: BioLite Net
- ✓ Detektor Award in 2010 - Best product: D-Station
- ✓ Detektor Award in 2012 – Innovative Achievement: FaceStation
- ✓ Suprema develop in house and manufacture fingerprint sensors, systems and interface software
- ✓ Suprema products are “Made in Korea” to meet with high quality standards

# I. Business Highlights

Stable revenue stream from over 1,000 partners across 125 countries

※ Note : Exports Share by Region

## Chapter 2

### Product Line Up

---

# Product Overview

Suprema Provides Global Leading Biometric Technologies and Innovative Products for Various Downstream Applications.

System

Biometric AC/TA Terminals

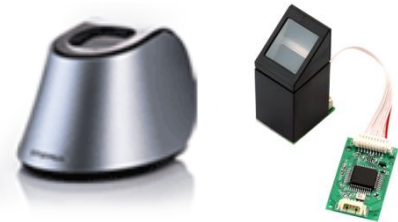

RFID AC/TA Terminals

Access Control Management s/w

Solution

Embedded Fingerprint Modules

USB Fingerprint Scanner

ID Solution

Fingerprint Live Scanner

Passport/ID Readers

State-of-the-Art Face Recognition IP Terminal providing near real-time Template Matching Results  
FaceStation uses adaptive IR illumination technology (near-Infrared, patented)

- ✓ **Next Generation Face Recognition Technology**  
High performance face recognition with Suprema's algorithms.
- ✓ **4.3" Touch screen LCD & Intuitive interface**  
High-durability touch screen LCD with easy-to-use GUI
- ✓ **Ultra Performance**  
1:1,000 matches in less than a second  
1,000 users with 5,000 image logs
- ✓ **Versatile Interface**  
Wifi, TCP/IP, RS485, RS232, USB, Wiegand and relay
- ✓ **Video Phone Interface**  
IP based video and audio interface for analog video phone
- ✓ **PoE [Power over Ethernet]**  
Allows device to be powered and controlled through Ethernet.  
Easy and quick installation

## High Performance Fingerprint IP Terminal with Internal Camera and Video Phone Interface

- ✓ **Intuitive Touch Screen GUI**  
5-inch, high-durability touch screen LCD panel with easy-to-use GUI
- ✓ **Face Detection Technology**  
Face image capturing camera for enhanced security level
- ✓ **Embedded Web Server**  
Preloaded with BioStar Lite embedded web server
- ✓ **Ultra Performance**  
1:3,000 matches in one second, max. 200k users and 1 million logs
- ✓ **Versatile Interface**  
PoE, WiFi, TCP/IP, RS485/232, USB, Wiegand and relay
- ✓ **Video Phone Interface**  
IP based video and audio interface for analog video phone

# BioStation

Full-featured Fingerprint IP Terminal Supporting  
Optimal Solution for Access Control & Time Attendance

- ✓ **Intuitive Color LCD GUI**  
Easy-to-use GUI with 2.5-inch color LCD and numeric/function keys
- ✓ **Ultra Performance**  
1:3,000 matches in one second, max. 200k users and 1 million logs
- ✓ **Versatile Interface**  
WiFi, TCP/IP, RS485/232, Wiegand and relay
- ✓ **USB Memory Slot**  
USB2.0 memory slot for easier data transfer
- ✓ **RF Card Options**  
Choice of EM, Mifare/DesFire or HID Prox.

Smart IP Access & Attendance terminal with Touch Screen LCD and Face Detection technology

- ✓ **Face Detection Technology**  
Built-in megapixel camera for face image capture and video phone
- ✓ **Intuitive GUI**  
3.5-inch touch screen LCD with easy to use GUI
- ✓ **Versatile Interface**  
TCP/IP, 2ch RS485, Wiegand and relay
- ✓ **Embedded Web Server**  
Preloaded with BioStar Lite embedded web server
- ✓ **RF Card Options**  
Choice of EM or Mifare/DesFire

# BioLite (Solo and Net)

Outdoor Fingerprint IP Terminal with Access Control & Time Attendance

- ✓ **Outdoor Installation**  
IP65 dust & waterproof structure with keypad/LCD backlit
- ✓ **Versatile Interface**  
TCP/IP, RS485, Wiegand and relay
- ✓ **Suprema Algorithm**  
Powered by the world's best performing Suprema fingerprint algorithm
- ✓ **TCP/IP or Standalone Operation**  
Choice of network(BioLite Net) or standalone(BioLite Solo) version
- ✓ **RF Card Options**  
Choice of EM or Mifare/DesFire

Outdoor Fingerprint IP Reader/Controller with IP65 Vandal Resistance and PoE capability

- ✓ **IP65 rated Waterproof Structure**  
IP65 dust & waterproof structure for outdoor use
- ✓ **Vandal Resistant Housing**  
Special AVS plastic housing to ensure vandal resistant design
- ✓ **Versatile Interface**  
TCP/IP, RS485, Wiegand and relay
- ✓ **Power over Ethernet**  
Powered by PoE to lower the cost of installation
- ✓ **RF Card Options**  
13.56MHz Mifare/DesFire, 13.56MHz iCLASS SE, 125kHz HID Prox

Fingerprint IP Reader/Controller, designed for Simplicity, Superb Engineering

- ✓ **Sleek and Slim Design**  
Award-winning design and slim size to fit narrow space
- ✓ **IP Connectivity**  
TCP/IP interface for IP access control system
- ✓ **Versatile Interface**  
TCP/IP, RS485, Wiegand and relay
- ✓ **Suprema Algorithm**  
Powered by the world's best performing Suprema fingerprint algorithm
- ✓ **RF Card Options**  
Choice of EM, Mifare/DesFire, HID Prox or iCLASS

## Smart IP Reader/Controller with IP65 Waterproof Structure and PoE Capability

- ✓ **Outdoor Installation**  
IP65 dust & waterproof structure with keypad/LCD backlit
- ✓ **Power over Ethernet**  
IP65 dust & waterproof structure for outdoor use
- ✓ **IP Connectivity**  
TCP/IP interface for IP access control system
- ✓ **Versatile Interface**  
TCP/IP, RS485, Wiegand and relay
- ✓ **Outdoor Installation**  
IP65 dust & waterproof structure with LED indicator
- ✓ **RF Card Options**  
Choice of EM, Mifare/DesFire or HID Prox

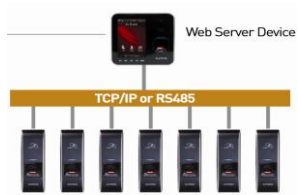

Smart IP Reader/Controller with Ultra Compact Design and Multi-Smartcard Feature

- ✓ **Multi Smart Card Technology**  
13.56MHz Mifare CSN, Inside CSN, Felica IDM, ISO14443A/B CSN, ISO 15693 CSN
- ✓ **Ultra Slim Design**  
11.4mm super slim and aesthetic design to fit US/EU and Asian gang boxes
- ✓ **Versatile Interface**  
TCP/IP, RS485, Wiegand and relay
- ✓ **Outdoor Installation**  
IP65 dust & waterproof structure
- ✓ **Various Mount Type Support**  
US/EU/Asia gang box, flush box and any plat surface

BioStar is a comprehensive access control management software. It features an efficient TCP/IP based system architecture associated with intelligent IP readers. BioStar supports third-party devices and integration with other business systems thanks to the BioStar SDK.

## BioStar Lite

| Embedded Web Server – License Free

BioStar Lite is an entry level, web-based access control management software **supporting up to 10 devices** with one door anti-passback. Simple user interface and synchronization with sub-devices makes system operation easier than ever.

## BioStar Basic

| Essential IP Access Control Management Software for SME – License Free

BioStar Basic (BE) is ideal for small to medium sized enterprises. The system **covers up to 20 devices** and supports integration with various database systems, event monitoring, T&A management and reporting features.

## BioStar Standard

| Integrated IP Access Control Management Software – USB Dongle License

BioStar Standard Edition (SE) offers powerful and comprehensive access control functionalities for large-sized organizations. BioStar SE **controls up to 512 access control devices** with IP camera/NVR integration, anti-passback, muster zone, e-mail notification and visual map features and more ...

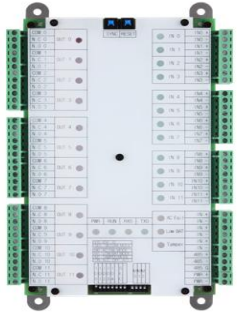

## BioStar VideoPhone | Video Intercom Software

BioStar VideoPhone is an IP based video intercom software replacing an analogue video phone. Associated with Suprema readers such as X-Station, D-Station and BioStation T2, the application will allow the operator to interact with visitors and remotely control doors.

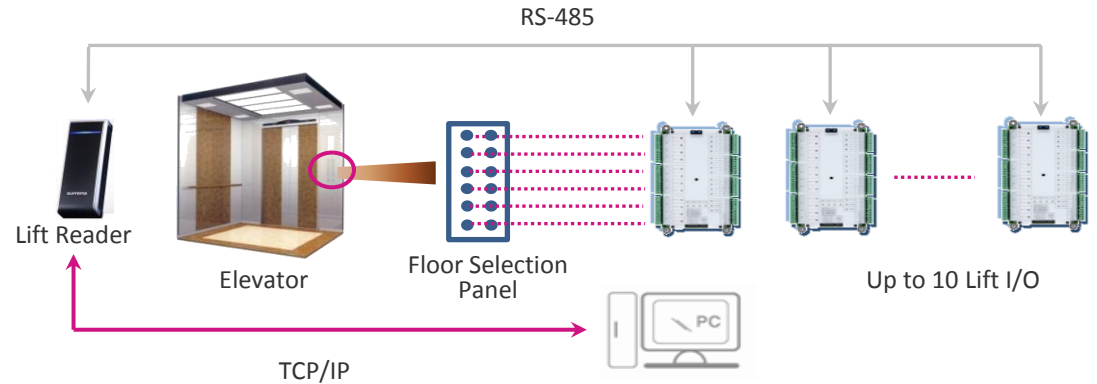

# Lift I/O and Secure I/O

The **Lift I/O** is a dedicated lift I/O module to control the floor access up to 12 floors. Each reader can connect with up to 10 Lift I/Os, which allows for the potential control of a staggering 120 floors.

## LIFT I/O

- CPU** : 16MHz, 8bit Microprocessor
- Input** : 12-Ch
- Output** : Form C Relay 12-Ch
- Display** : 31 Status LEDs
- Power** : 12VDC @500mA
- Scalability** : Up to 10 per Host device

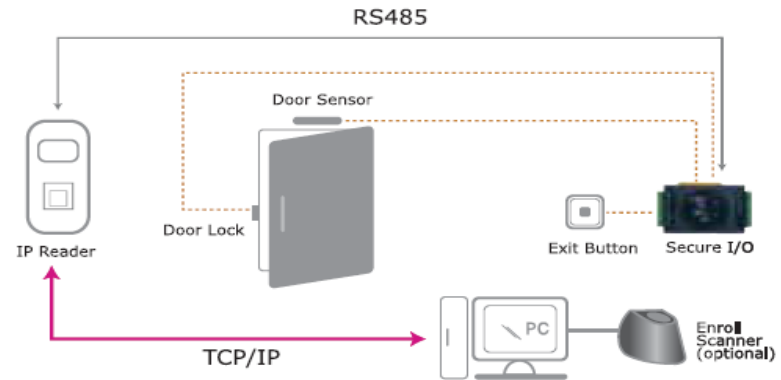

The **Secure I/O** is a separate controller for door control and I/O expansion. With encrypted communication, it provides secure and cost effective access control system.

## Secure I/O

- CPU** : 16MHz, 8bit Microprocessor
- Input** : 4-Ch
- Output** : Form C Relay 2-Ch
- Display** : 10 Status LEDs
- Power** : 12VDC @500mA

## BioMini Series and Modules

1. About Suprema | 2. [Product Line Up](#) | 3. Reference Sites

Suprema's fingerprint-based PC solution. BioMini has been designed specially to provide a high level of biometric security. It is Plug and Play with BioStar and allows convenient enrollment of fingerprints at security operator's desk. Also, Suprema provides embedded fingerprint modules for various applications.

- ✓ **Durable Optical Sensor**  
500dpi optical sensor with scratch-free surface
- ✓ **Image Quality Standards**  
NIST certified interoperable template format standards (ANSI-378/ISO19794-2); Image compression standards (WSQ)
- ✓ **USB2.0 Interface**  
Plug and play high-speed USB2.0 interface
- ✓ **SDK Support**  
Comprehensive SDK support for application software development  
Supports MS Windows & Linux

## RealScan-G10

Compact **Ten Fingerprint** Live Scanner

- IP54 Rugged Structure
- FBI IQS App. F Certified
- FIPS201 Certified

## RealScan-D

Portable **Dual Fingerprints** Live Scanner

- Wide Platen for Easy Scanning
- FBI IQS App. F Certified
- FIPS201 Certified

## RealScan-G1

Compact **Single-Fingerprint** Live Scanner

- Live Finger Detection
- IP54 Rugged Structure
- FBI PIV Certified
- FIPS201 Certified
- EBTS Appendix F Mobile ID FAP 30

## RealScan-F

**Palm print** Live Scanner

- Intuitive Control Panel and Color LCD Display
- FBI IQS App. F Certified

## RealPass-F

### Multi-functional Passport Reader

- Reading variety of data including OCR, photos, characters, 1D2D barcodes
- One-step reading of visual data page of ICAO 9303 standard
- IP54 rated rugged structure

## RealPass-V

### Full-page Multi-functional e-Passport Reader

- One-step reading of data page and RF chip data of ICAO Doc 9303
- Reliability and accuracy for authenticating ICAO standard doc as well as issuing passports and e-passports
- Wide range of application (e.g. Border control, Automated immigration clearance system/auto-gate, CUSS, Kiosk, etc.)

The logo graphic consists of several overlapping, organic shapes in shades of orange, red, and magenta. The word "SUPrema" is written in white, with "SUP" in all caps and "rema" in lowercase, positioned over the central part of the graphic.

- Country : Malawi / Zimbabwe
- Industry : Tobacco Manufacturer
- Customer : Tobacco production company
- Product : BioLite Net
- Site : 74 units
- Application : Authentication

# Why SUPREMA?

World Renown Fingerprint Technology

**Multi-Award winning** fingerprint technology [MINEX & FVC]  
**Proprietary** of algorithms, sensors, firmware, software, hardware  
**Top class R&D investment** with numerous patents

High Quality State-of-the-Art Products

Powerful, efficient, and reliable technology using the latest technology  
Continually evolving and **developing compatible systems and applications**  
Professional top quality manufacturing & quality control

Numerous References, Key Strategic Partners

Sold to more than 1,000 customers located in 125 countries worldwide  
Extensive government, military, police and corporate references  
**Strategic Partners**

Excellent Financial Stability

The **fastest growing company** specialized in biometric solutions  
**Independent company** and listed at KOSDAQ Korean stock market  
Company market capital of over \$300,000,000.00(As of Jan.2013)
