

cod. LMPOU5T

lampeggiatore ONE UP 24V

Italiano

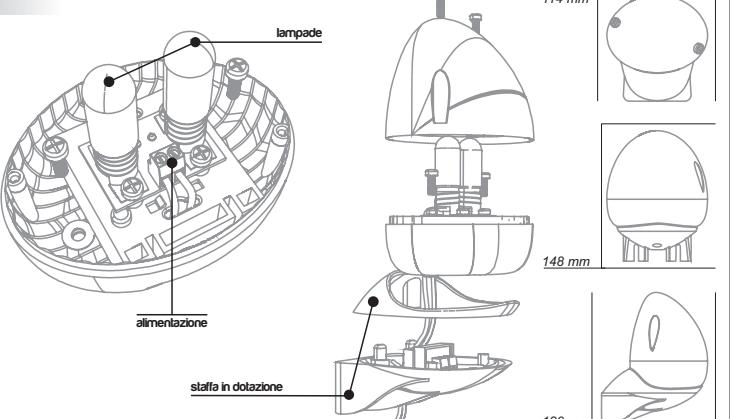

abbinato a **MODULO RADIO** cod. RADCN4Tabbinato a **RADIO ANTENNA DA ESTERNO** cod. RANRC5T**INSTALLAZIONE STANDARD**

Può essere installato a parete utilizzando la staffa e le viti in dotazione.

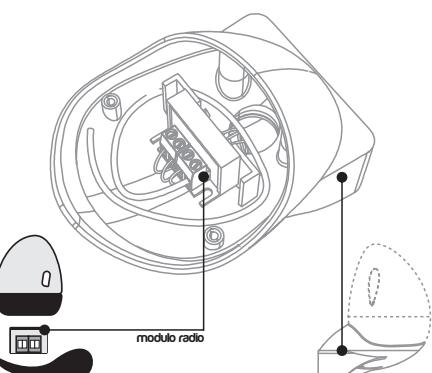

INSTALLAZIONE SU COLONNINA

Può essere installato direttamente su colonna (anche piramidale), non utilizzando la staffa in dotazione.

ONE UP è equipaggiato con 2 lampade da 10W alimentate a 24V.

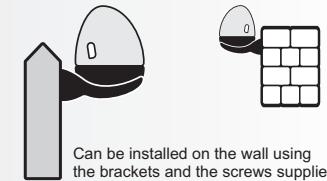

La staffa in dotazione del lampeggiatore **ONE UP** offre la possibilità di ospitare al suo interno il **modulo radio** cod. RADCN4T (se disponibile). Questa operazione può aumentare in maniera considerevole la portata del segnale.

cod. LMPOU5T

ONE UP 24V flashing lamp

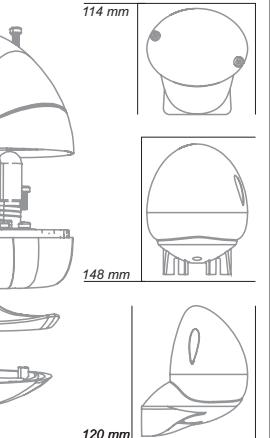

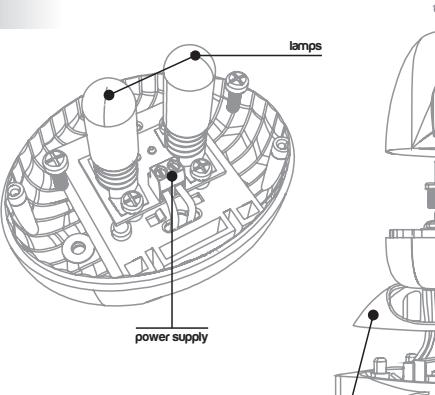

English

combined with **RADIO MODULE** cod. RADCN4T**STANDARD INSTALLATION**

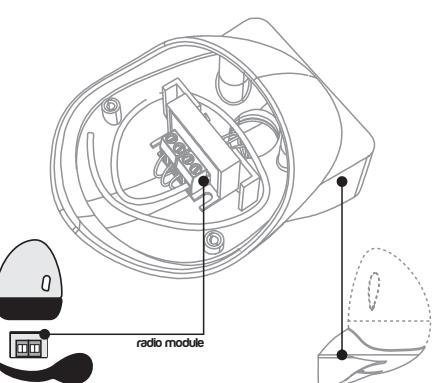

Can be installed on the wall using the brackets and the screws supplied.

INSTALLATION ON A COLUMN

Can be installed directly on a column (even pyramidal), without using the bracket supplied.

The supplied bracket of the flashing lamp **ONE UP** can host inside the **radio module** cod. RADCN4T (if available). This operation can significantly increase the signal range.

cod. LMPOU5T

lampe clignotante ONE UP 24V

Français

en combinaison avec le **MODULE RADIO** cod. RADCN4T

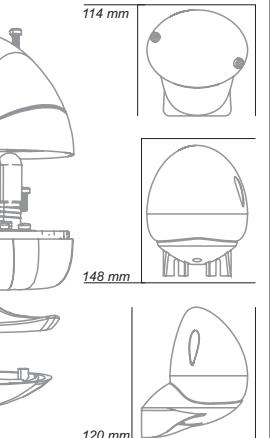

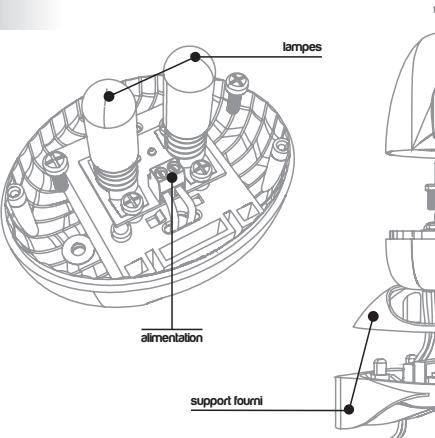

en combinaison avec L'ANTENNE RADIO EXTERNE cod. RANRC5T

INSTALLAZIONE STANDARD

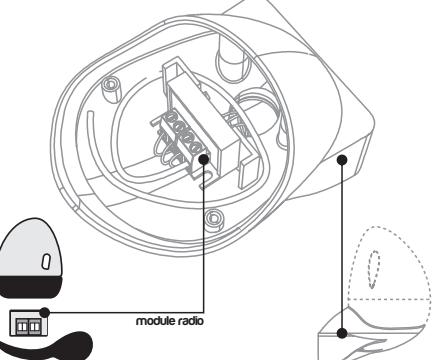

Peut être installée au mur en utilisant le support et les vis fournies.

INSTALLAZIONE SUR COLLONE

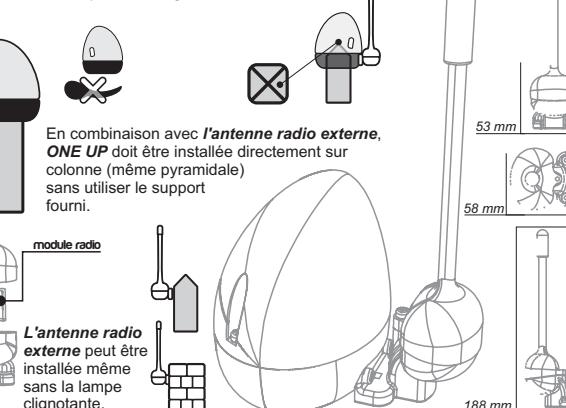

Peut être installée directement sur une colonne (même pyramidale) sans utiliser le support forniti.

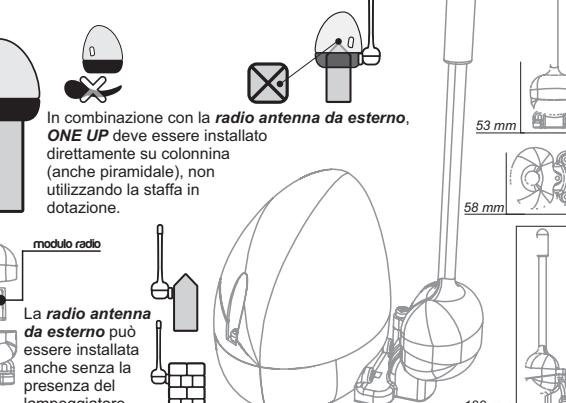

Le support fornito con la lampe clignotante **ONE UP** offre la possibilità d'installare dans son interrno le **modulo radio** cod. RADCN4T (si disponibile). Questa operazione può aumentare considérablemente la portata del segnale.

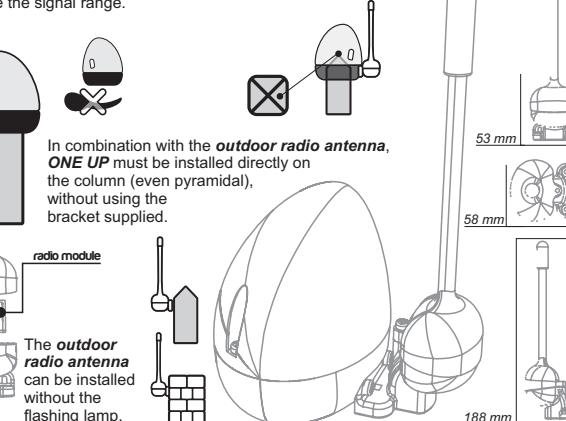

ONE UP peut être installée en combinaison avec l'**antenne radio externe** cod. RANRC5T (si disponible). Cette opération peut augmenter considérablement la portée du signal.

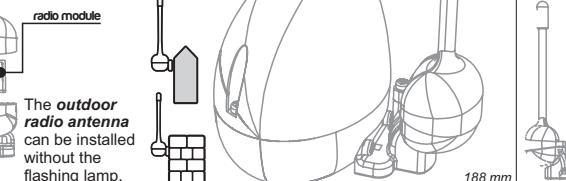

ONE UP può essere installato in combinazione con la **radio antenna da esterno** cod. RANRC5T (se disponibile). Questa operazione può aumentare in maniera considerevole la portata del segnale.

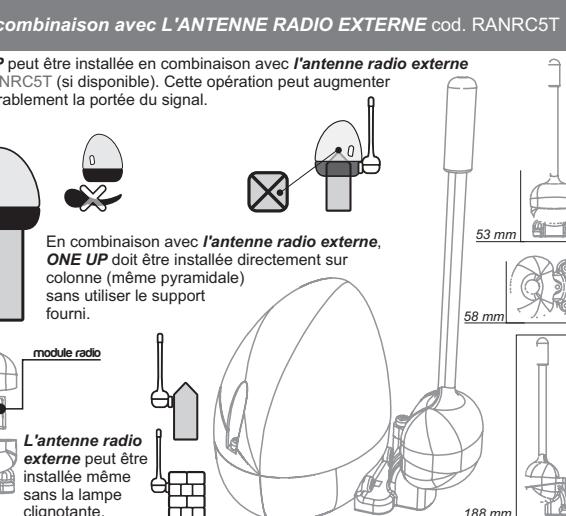

ONE UP can be installed in combination with the **outdoor radio antenna** cod. RANRC5T (if available). This operation can significantly increase the signal range.

In combination with the **outdoor radio antenna**, **ONE UP** must be installed directly on the column (even pyramidal), without using the bracket supplied.

The **outdoor radio antenna** can be installed without the flashing lamp.

cod. LMPOU5T

Lámpara destellante ONE UP 24V

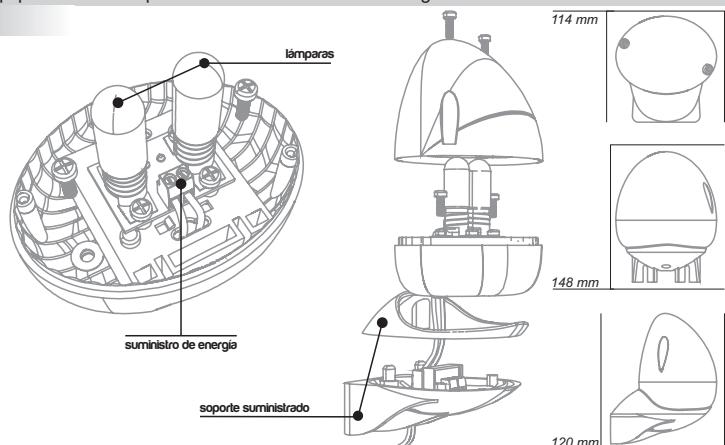

Español

**junta con el MÓDULO DE RADIO cod. RADCN4T****junta con la ANTENA DE RADIO EXTERIOR cod. RANRC5T****ONE UP** está equipada con 2 lámparas de 10W suministro de energía 24V.**INSTALACIÓN ESTÁNDAR**

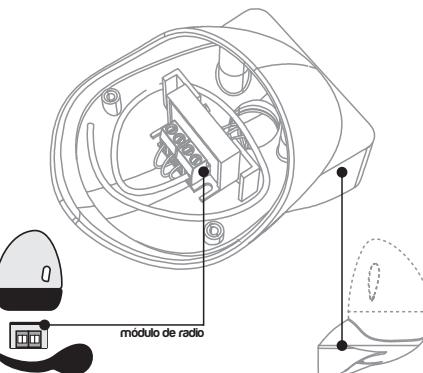

Se puede instalar en una pared usando el soporte y los tornillos suministrados.

INSTALACIÓN SOBRE COLUMNAS

Se puede instalar directamente sobre una columna (aun piramidal) sin utilizar el soporte suministrado.

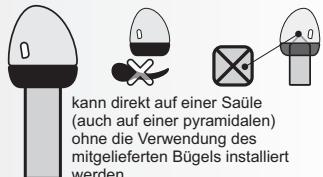

El soporte suministrado con la lámpara destellante **ONE UP** ofrece la posibilidad de alojar en su interior el **módulo de radio** cod. RADCN4T (si está disponible). Esta operación puede aumentar considerablemente el alcance de la señal.

**cod. LMPOU5T****Blinkleuchte ONE UP 24V**

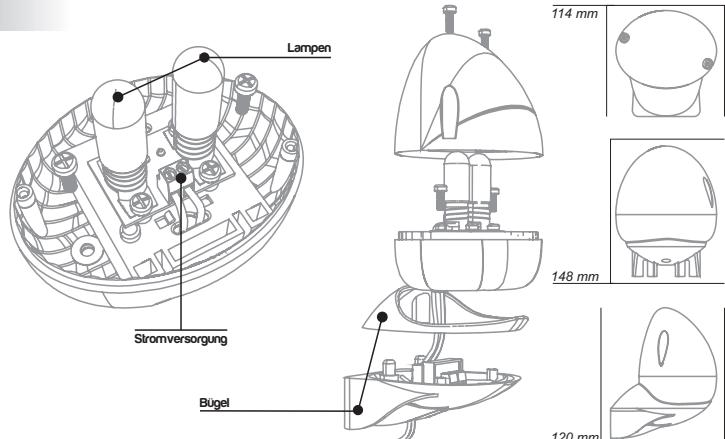

Deutsch

**In Kombination mit dem FUNKMODUL cod. RADCN4T****ONE UP** ist mit 2 Lampen von 10 W die mit 24V Strom versorgt sind ausgerüstet.**STANDARDINSTALLATION**

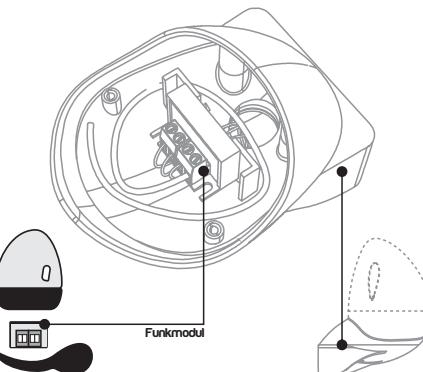

kann an der Wand mit dem mitgelieferten Bügel und Schrauben installiert werden.

INSTALLATION AUF EINER SÄULE

kann direkt auf einer Säule (auch auf einer pyramidalen) ohne die Verwendung des mitgelieferten Bügels installiert werden.

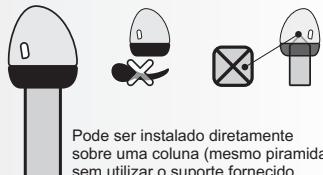

Der mitgelieferte Bügel der Blinkleuchte **ONE UP** ermöglicht eine Installation des **Funkmoduls** cod. RADCN4T (falls verfügbar) in seinem Inneren. Diese Operation kann die Reichweite des Funksignals erheblich erhöhen.

**cod. LMPOU5T****lampejante ONE UP 24V**

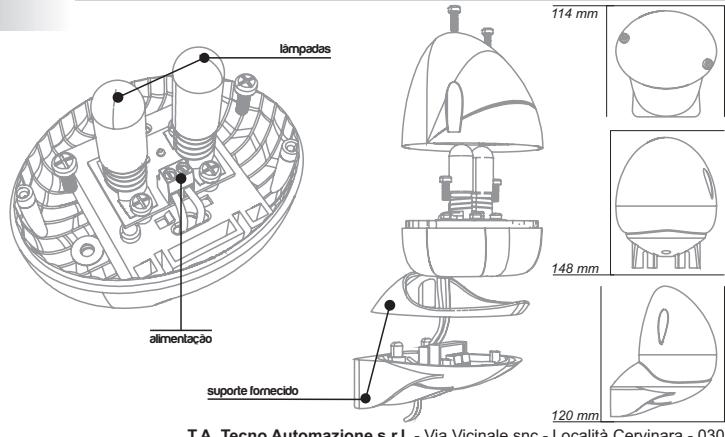

Português

**juntamente com o MÓDULO DE RÁDIO cod. RADCN4T****ONE UP** está equipado com 2 lâmpadas de 10W, alimentação de 24V.**INSTALAÇÃO PADRÃO**

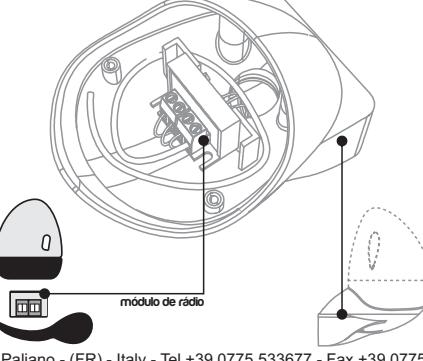

Pode ser instalado à parede usando o suporte e os parafusos fornecidos.

INSTALAÇÃO EM COLUNA

Pode ser instalado diretamente sobre uma coluna (mesmo piramidal) sem utilizar o suporte fornecido.

O suporte fornecido do lampejante **ONE UP** oferece a possibilidade de alojar no seu interior o **módulo de rádio** cod. RADCN4T (se disponível). Esta operação pode aumentar considerably o alcance de sinal.

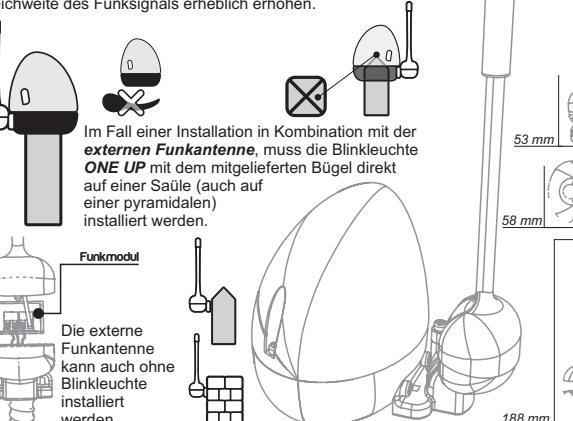

ONE UP se puede instalar en combinación con la antena de radio exterior cod. RANRC5T (si está disponible). Esta operación puede aumentar considerablemente el alcance de la señal.

En combinación con la **antena de radio exterior**, **ONE UP** debe instalarse directamente sobre la columna (aun piramidal) sin utilizar el soporte suministrado.

ONE UP kann in Kombination mit der **externen Funkantenne** cod. RANRC5T (falls verfügbar) installiert werden. Diese Operation kann die Reichweite des Funksignals erheblich erhöhen.

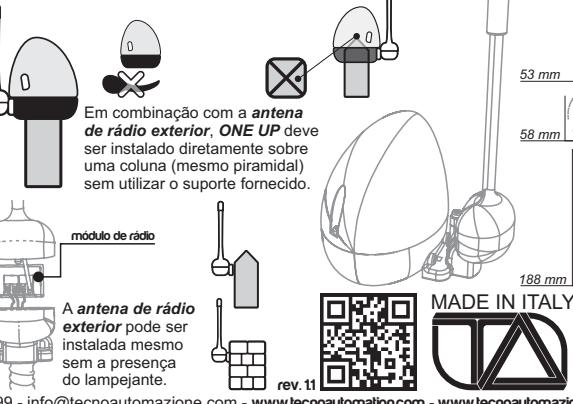

Im Fall einer Installation in Kombination mit der **externen Funkantenne**, muss die Blinkleuchte **ONE UP** mit dem mitgelieferten Bügel direkt auf einer Säule (auch auf einer pyramidalen) installiert werden.

Funkmodul
Die externe Funkantenne kann auch ohne Blinkleuchte installiert werden.

ONE UP pode ser instalado em combinação com a **antena de rádio exterior** cod. RANRC5T (se disponível). Esta operação pode aumentar considerably o alcance de sinal.

Em combinação com a **antena de rádio exterior**, **ONE UP** deve ser instalado diretamente sobre uma coluna (mesmo piramidal) sem utilizar o suporte fornecido.

módulo de rádio
A antena de rádio exterior pode ser instalada mesmo sem a presença do lampejante.
