## INTEGRATED POSITIONING UNITS

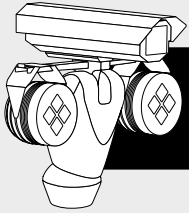

ULISSE positioning units are ideal for use in several kinds of outdoor installations, like: coast and harbour controls, border patrol, urban settings, highway and traffic monitoring, stadiums and industry, prisons and military applications, perimeter surveillance. Thanks to the aesthetically appealing design, attractiveness and increased deterrence, several applications are suitable for Videotec MISTRAL units like: showrooms and galleries, hotel and office foyers, lift lobbies and corridors, banks, boutiques and department stores, libraries, public buildings and architecturally sensitive areas.
