

ACERO, video doorphone set, 4-wire, 7", Wi-Fi, touch screen, Full HD

Marka: **Virone** | Symbol: **VDP-71/B** | Ean: **5908254845246**

PRODUCT DESCRIPTION

ACERO handset-free video doorphone set with a touchscreen and Full HD camera. The device is intended for single-family houses, companies and institutions. ACERO provides household members with sense of security and ensures property entrance control. The intuitive 4-wire connection enables to install the device by yourself, and the electric door strike with a maximum current consumption of 300mA powered directly from the video doorphone allows to reduce the number of wires run to a wicket.

ACERO is equipped with a huge 7-inch touchscreen, thanks to which the operation of the appliance is easy and intuitive, and the resolution of 1024x600px ensures clear picture. The screen enables to control a gate and a wicket. The answering machine feature allows a guest to leave a message while household members are away. One may record the video footage and the photos of this incident on internal memory or a microSD card.

The 182x125 mm monitor is made of plastic in black and silver colours. It is intended for surface mounting.

The set may be expanded with an additional monitor (max. 4 per set) and installed between floors in a large house. With the help of additional screens, the indoor unit may establish a connection, thus facilitating communication of household members inside the building.

The device has 6 different melodies with volume control allowing to assign an individual call sound to each outdoor or indoor unit.

Authorised persons may access the property with the help of one button built in the outdoor unit. The device is also equipped with a name label. A camera with wide 93° horizontal and 46° vertical viewing angle, built into the ACERO outdoor unit, provides a full view in front of the wicket both during a call and while monitoring.

The outdoor unit equipped with a motion sensor facilitates video recording and photo taking after a movement near the wicket is detected. The incident is recorded on microSD card. The 1920x1080 Mpx Full HD camera registers videos and photos with a very clear image. White LED lighting ensures excellent image quality even after dark.

The 64x153 mm outdoor unit is made of aluminium and has a rain cover. The IP44 rating guarantees durability and weather resistance.

The set may be expanded with additional monitors (max. 4 per set), an additional outdoor unit (max. 2 per set) and an additional CCTV camera (max. 2 per set). This provides an effective entry control and monitoring system, even with two entrances to the house. The outdoor units may be freely placed at the gates, the CCTV cameras anywhere on the house, providing the user with a view of the property.

TECHNICAL DATA

General information:

Type:	jednorodzinny
With video:	tak
Current supply:	Zasilanie sieciowe
Nominal voltage [V]:	15V DC 1A

Type of transmission:	przewodowy
Can be connected to smartphone:	nie
Installation technique:	System wieloprzewodowy
Number of wires (*from outdoor unit to electric strike):	4 (+2)*
Number of indoor stations:	1
Number of outdoor stations:	1
Expandable to max. number of indoor stations:	4
Expandable to max. number of outdoor stations:	2
Expandable to max. number of CCTV cameras:	2
Operation door lock:	tak
Current supply of the electric strike:	dodatkowy zasilacz niewymagany
Connection system of the electric strike:	z panelem zewnętrznym
With automatic door opener:	tak
With day/night function:	tak

Monitor:

Mounting method indoor station:	Montaż natynkowy
Hands free:	tak
Screen diagonal [inch]:	7"
Screen resolution:	1024x600
Touch screen:	tak
Property picture system:	Kolor
With memory function:	tak
SD card reader:	tak
Internal communication:	tak
Number of ringtones:	6
Specific call tone:	tak
Loudness control:	tak
Mutable call tone:	tak

Material indoor station:	Tworzywo sztuczne
Colour indoor station:	Czarno-srebrny
Dimensions of the monitor - Width [mm]:	182
Dimensions of the monitor - Height [mm]:	125
Dimensions of the monitor - Depth [mm]:	27
Other features:	automatyczna sekretarka

Outdoor unit:

Number of call buttons:	1
Mounting method outdoor station:	Montaż natynkowy
Camera resolution:	2MP, 1920x1080, 1080p
Camera view angle:	93
Camera view angle:	46
Night light:	białe LED
With digital door code:	nie
Card and proximity tags reader:	nie
Label space/information surface:	tak
With cover:	tak
Vandal proof:	nie
Degree of protection (IP):	IP44
Material outdoor station:	Aluminium
Colour outdoor station:	Srebrny
Width [mm]:	64
Height [mm]:	153
Depth [mm]:	46
